

Sacramento County Building Permits and Inspection Division Announces Electronic Submittal and Review of Residential Production Home Permits and Master Plans (Also known as “E-RES”)

In our commitment to continually improve customer service, Sacramento County has developed a new program to accept production home permits and master plans electronically. The new E-RES Program will be available to production home customers on Monday, January 4, 2016, and program goals are to speed up permit in-take, review, approval and issuance.

Customers can expect significant savings in time and money and realize the following benefits:

- Secure submission of electronic plans using the internet or by mail
- Instant submittal and distribution of plans to reviewing parties
- Significant cost savings on printing of plans and supplemental documents.
- Improves permit tracking and documentation
- Reduction of vehicle trips to County offices
- Reduction in paper waste

For complete information and how to submit your production home permits and master plans visit:

www.E-RES.saccounty.net

For more information, please contact Shawn Rodgers at (916) 875-5588 or Tony Santiago at 874-7093.
